

Fehr Graham is a premier provider of engineering, environmental, and funding solutions for commercial, industrial, institutions and government clients. Our clients depend on us to bring insightful solutions to their most challenging problems. We have ten regional offices in Illinois, Iowa, and Southern Wisconsin serving the engineering and environmental needs of these communities.

Fehr Graham is searching for an experienced **Engineering Technician** to join our West Union, Iowa team of talented, trustworthy, skilled individuals who are passionate about what they do and enjoy providing personalized attention to our clients.

**Position Description:** Engineering Technician is needed to provide support to the engineering functions of the firm. Must be knowledgeable of methods used in taking field measurements, creating and interpreting drawings, plans, land surveying, and construction observation. High percentage of outdoor work required. Must be proficient in using modern survey equipment, Autodesk Civil 3D and other various computer software programs.

The successful candidate must be a hard worker, team player, work independently, and able to effectively communicate information to co-workers as well as clients.

**Position Qualifications/  
Experience Required:**

- An Associate's degree in Engineering Technology, Construction Technology, Architectural Technology or CAD Drafting from a technical college or institution. Significant relevant experience in a similar operation may offset the educational requirement.
- 2-5 years' experience

Our compensation and benefits package includes; medical/life/disability insurance, 401K Profit Sharing Plan, Paid Vacations and Holidays, and a great work environment. We offer a competitive salary with professional growth opportunities.
